

Lead Product Designer with **2+ years** of experience designing **enterprise SaaS platforms, AI-powered products, privacy technology and scalable design systems**. Experienced in product strategy, UX research, design systems, cross-functional leadership, AI-assisted workflows and end-to-end product delivery from discovery to implementation. Skilled in leveraging Generative AI to accelerate research, ideation, prototyping, documentation and product delivery while aligning user needs, business goals and engineering teams to build scalable digital products.

WORK EXPERIENCE

Nyusta

Bengalore

Lead Product Designer • Nov 2024 – Present

- **Led the end-to-end design of Neostra**, creating 30+ enterprise workflows, 200+ reusable design system components and collaborating across Product and Engineering to deliver a scalable privacy compliance platform.
- **Owned the complete UX lifecycle** — from product discovery, research, information architecture, wireframing, prototyping and visual design to developer handoff and implementation review.
- Defined scalable design systems, interaction patterns, accessibility guidelines and documentation that accelerated product development while maintaining consistency across the platform.
- Partnered directly with founders, product managers, developers and customers to translate complex privacy regulations into intuitive enterprise workflows.
- Designed enterprise modules including Privacy Portal, DSAR Management, Cookie Consent Management, Preference Center, Data Mapping, Privacy Assessments and Administration.
- Led UX reviews during development, ensuring high-quality implementation and continuous product improvements across every release.

Patcorn Drymix Pvt. Ltd.

Gurgaon

Design Consultant • Sep 2025 – Present

- **Designed and launched 5 internal business products serving sales teams, contractors, dealers and business operations** while establishing a unified design system across the Tejas ecosystem.
- Led UX strategy and product design for **Chiraag, Tejas Captain, ContractorBhai, MistriBhai and Adhikar**, transforming operational workflows into scalable digital experiences.
- Collaborated closely with business leadership to define product vision, user journeys, workflows and feature roadmaps for multiple internal platforms.
- Established reusable design components and product standards to maintain consistency across the organization's technology ecosystem.
- Led company branding initiatives, marketing design, presentations, websites and product identity systems supporting the Tejas brand portfolio.

Kamdhenu Group

Raipur

Junior Product Designer • May 2024 – Nov 2024

- Designed digital products and customer experiences across adhesives, dealer engagement, contractor loyalty and internal business platforms.
- Created user-centric interfaces for dealer management, loyalty programs, product marketing and sales enablement solutions aligned with business objectives.
- Collaborated with cross-functional teams including product, engineering, sales and marketing to deliver high-quality digital experiences.
- Contributed to product branding, marketing campaigns, websites, presentations and scalable design assets across the Kamdhenu digital ecosystem.
